AUDIT OBJECTIVES

The objective of our audit is the expression of an opinion about whether your financial statements are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles and to report on the fairness of the supplementary information referred to in the first paragraph when considered in relation to the financial statements as a whole. The objective also includes reporting on:

- Internal control over financial reporting and compliance with the provisions of laws, regulations, contracts, and award agreements, noncompliance with which could have a material effect on the financial statements in accordance with Government Auditing Standards (GAS).
- Internal control over compliance related to major programs and an opinion (or disclaimer of opinion) on compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a direct and material effect on each major program in accordance with the Consolidated Audit Guide for Audits of HUD Programs (the Guide).

The Government Auditing Standards report on internal control over financial reporting and on compliance and other matters will include a paragraph that states (1) that the purpose of the report is solely to describe the scope of testing of internal control and compliance and the results of that testing and not to provide an opinion on the effectiveness of the entity's internal control or on compliance, and (2) that the report is an integral part of an audit performed in accordance with GAS in considering the entity's internal control and compliance. The Guide report on internal control over compliance will include a paragraph that states that the purpose of the report on internal control over compliance is solely to describe the scope of testing of internal control over compliance and the results of that testing based on the requirements of the Guide. Both reports will state that the report is not suitable for any other purpose.

Our audit will be conducted in accordance with auditing standards generally accepted in the United States of America, the standards for financial audits contained in GAS, issued by the Comptroller General of the United States; and the Guide and will include tests of accounting records, a determination of major program(s) in accordance with the Guide, and other procedures we consider necessary to enable us to express such opinions. We will issue written reports upon completion of our audit. Our reports will be addressed to [management and/or the partners or governing board] of PROJECT. We cannot provide assurance that an unmodified opinion will be expressed. Circumstances may arise in which it is necessary for us to modify our opinion or add an emphasis-of-matter or other-matter paragraph. If our opinion on the financial statements or the compliance opinions are other than unmodified, we will discuss the reasons with you in advance. If, for any reason, we are unable to complete the audit or are unable to form or have not formed opinions, we may decline to express opinions or to issue reports, or we may withdraw from this engagement.

AUDIT PROCEDURES—GENERAL

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; therefore, our audit will involve judgment about the number of transactions to be examined and the areas to be tested. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We will plan and perform the audit to obtain reasonable rather than absolute assurance about whether the financial statements are free of material misstatement, whether from (1) errors, (2) fraudulent financial reporting, (3) misappropriations of assets, or (4) violations of laws or governmental regulations that are attributable to PROJECT or to acts by management or employees acting on behalf of PROJECT. Because the determination of abuse is subjective, Government Auditing Standards do not expect auditors to provide reasonable assurance of detecting abuse.

Because of the inherent limitations of an audit, combined with the inherent limitation of internal control, and because we will not perform a detailed examination of all transactions, there is a risk that material misstatements or noncompliance may exist and not be detected by us, even though the audit is properly planned and performed in accordance with U.S. generally accepted auditing standards and GAS. In addition, an audit is not designed to detect immaterial misstatements or non-material violations of laws or governmental regulations that do not have a direct and material effect on the financial statements or on major programs. However, we will inform the appropriate level of management of any material errors, any fraudulent financial reporting, or misappropriation of assets that come to our attention. We will also inform the appropriate level of management of any violations of laws or governmental regulations that come to our attention, unless clearly inconsequential, and of any material abuse that comes to our attention. We will include such matters in the reports required for a HUD audit. In conformity with the Guide, we may be required to contact the HUD Single

Audit coordinator to discuss matters relating to fraud or equity skimming. Based on this discussion we may be requested to prepare a written report on all known or likely fraud that has occurred. Your acceptance of this engagement letter grants us permission to contact the HUD single audit coordinator and discuss the conditions noted. Our responsibility as auditors is limited to the period covered by our audit and does not extend to any later periods for which we are not engaged as auditors.

Our procedures will include tests of documentary evidence supporting the transactions recorded in the accounts and may include direct confirmation of cash, receivables, loan balances, and certain other assets and liabilities by correspondence with selected individuals, funding sources, creditors and financial institutions. We will request written representations from the project's attorneys as part of the engagement, and they may bill you for responding to this inquiry. At the conclusion of our audit, we will require certain written representations from you about your responsibilities for the financial statements; supplementary information; federal award programs; compliance with laws, regulations, contracts, and grant agreements; and other responsibilities required by generally accepted auditing standards.

AUDIT PROCEDURES—INTERNAL CONTROL

Our audit will include obtaining an understanding of the entity and its environment, including internal control, sufficient to assess the risks of material misstatement of the financial statements and to design the nature, timing, and extent of further audit procedures. Tests of controls may be performed to test the effectiveness of certain controls that we consider relevant to preventing and detecting errors and fraud that are material to the financial statements and to preventing and detecting misstatements resulting from illegal acts and other noncompliance matters that have a direct and material effect on the financial statements. Our tests, if performed, will be less in scope than would be necessary to render an opinion on internal control and, accordingly, no opinion will be expressed in our report on internal control issued pursuant to GAS.

As required by the Guide, we will perform tests of controls over compliance to evaluate the effectiveness of the design and operation of controls that we consider relevant to preventing or detecting material noncompliance requirements applicable to each major HUD-assisted program. However, our tests will be less in scope than would be necessary to render an opinion on those controls and, accordingly, no opinion will be expressed in our report on internal control issued pursuant to the Guide.

An audit is not designed to provide assurance on internal control or to identify significant deficiencies or material weaknesses. However, during the audit, we will communicate to management and those charged with governance internal control related matters that are required to be communicated under American Institute of Certified Public Accountants (AICPA) professional standards, GAS, and the Guide.

AUDIT PROCEDURES—COMPLIANCE

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we will perform tests of **PROJECT** compliance with provisions of applicable laws, regulations, contracts, and agreements, including grant agreements. However, the objective of those procedures will not be to provide an opinion on overall compliance, and we will not express such an opinion in our report on compliance issued pursuant to GAS.

The Guide requires that we also plan and perform the audit to obtain reasonable assurance about whether the **PROJECT** has complied with applicable laws and regulations and the provisions of contracts and grant agreements applicable to HUD-assisted major programs. Our procedures will consist of tests of transactions and other applicable procedures described in the Guide. The purpose of these procedures will be to express an opinion on **PROJECT**'s compliance with requirements applicable to each of its major HUD-assisted programs in our report on compliance issued pursuant to the Guide.

MANAGEMENT RESPONSIBILITIES

Management is responsible for (1) establishing and maintaining effective internal controls, including internal controls over federal awards, and for evaluating and monitoring ongoing activities to help ensure that appropriate goals and objectives are met; (2) following laws and regulations; (3) ensuring that there is reasonable assurance that government programs are administered in compliance with compliance requirements; and (4) ensuring that management and financial information is reliable and properly reported. Your responsibilities also include identifying any significant vendor relationships in which the vendor has the responsibility for program compliance and for the accuracy and completeness of that information. You are also required to confirm to us in the management representation letter that the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

You are responsible for the design and implementation of programs and controls to prevent and detect fraud, and for informing us about all known or suspected fraud or illegal acts affecting the **PROJECT** involving (1) management, (2) employees who have significant roles in internal control, and (3) others where the fraud could have a material effect on the financial statements. You agree to include our report on the supplementary information in any document that contains, and indicates that we have reported on, the supplementary information. You also agree to present the supplementary information with the audited financial statements OR make the audited financial statements readily available to users of the supplementary information no later than the date the supplementary information is issued with our report thereon. Your responsibilities include acknowledging to us in the management representation letter that (1) you are responsible for presentation of the supplementary information in accordance with U.S. generally accepted accounting principles; (2) you believe the supplementary information, including its form and content, is fairly presented in accordance with U.S. generally accepted accounting principles; (3) the methods of measurement or presentation have not changed from those in the prior period (or, if they have changed, the reasons for any such changes); and (4) you have disclosed to us any significant assumptions or interpretations underlying the measurement or presentation of the supplementary information .

Management is responsible for establishing and maintaining a process for tracking the status of audit findings and recommendations. Management is also responsible for identifying and providing copies of previous financial audits, and any other audits, attestations, studies, or reviews conducted by the HUD Office of Inspector General, HUD management, a contract administrator, or any other federal agency, directly related to the objectives discussed in the Audit Objectives section of this letter. This responsibility includes relaying to us corrective actions taken to address significant findings and recommendations resulting from those audits, attestations, studies, or reviews and reporting findings and the current status of such findings in the schedule of the status of prior audit findings, questioned costs and recommendations, in accordance with the requirements of the Guide. You are also responsible for providing management's views on our current findings, conclusions, and recommendations, as well as your planned corrective actions for the report, and for the timing and format for providing that information.

Management is also responsible for ensuring that the electronic submission of required annual financial and compliance data to HUD's Real Estate Assessment Center (REAC) is complete, accurate, and timely, in accordance with your regulatory and contractual obligations to HUD. Performance of the agreed-upon procedure required by HUD relating to the electronic submission of your financial information will be addressed in a separate letter and is subject to a separate fee.

You agree to assume all management responsibilities relating to the financial statements, supplementary information, and related notes, and any other nonaudit services we provide. You will be required to acknowledge in the management representation letter your responsibility for the financial statements, related footnotes, supplemental data, tax and other nonaudit services provided and that you have reviewed and approved the financial statements, supplementary information, and related notes prior to their issuance and
